About Nanorisk

Nanorisk Limited is a UK-based cyber security consultancy specialising in offensive security services, including vulnerability assessments, penetration testing, adversary simulation, and threat-led security assessments.

Engagements are delivered by experienced security consultants holding recognised industry certifications from bodies such as CREST, Offensive Security, and INE. Nanorisk delivers independent, risk-focused testing designed to reflect realistic attack scenarios and provide meaningful security assurance.

Nanorisk prides itself on delivering a high-calibre professional service across every engagement, from initial consultation through to detailed, actionable reporting and post-assessment support, including retesting where applicable. The organisation is driven by a clear ambition to operate among the highest-performing consultancies in the cyber security industry, delivering rigorous security assurance and exceptional value without unnecessary cost or complexity.

Advanced Security for Advanced Threats.

Assessment Context and Limitations

Security assessments are conducted in accordance with the agreed scope, rules of engagement, and applicable methodologies defined for each engagement.

Assessments represent a point-in-time evaluation of the in-scope environment based on the information and access available during testing. While reasonable care is taken to identify security weaknesses, it is not possible to guarantee that all vulnerabilities, attack paths, or security issues will be identified. System configurations, threat landscapes, and vulnerabilities may change over time.

Testing activities are performed using controlled techniques intended to minimise risk. However, as with any technical assessment, there is an inherent possibility of unintended system behaviour. Any material issues identified during testing will be communicated in accordance with the agreed escalation procedures.

Information provided through assessment outputs should be used to inform remediation planning and risk management activities rather than as a guarantee of overall security posture.

Confidentiality and Use of Information

Information contained within this document may include confidential, sensitive, or proprietary information relating to Nanorisk and/or the client.

Such information is provided for authorised use only and must not be disclosed, distributed, or relied upon by unauthorised parties without prior written consent, except where required by law.

Nanorisk treats all client information accessed or generated during engagements as confidential and handles such information in accordance with applicable legal, contractual, and professional obligations.

About Us

Nanorisk Limited (“Nanorisk”, “we”, “us”, or “our”) is a UK-based cyber security consultancy. We are committed to protecting the privacy and security of personal data.

Nanorisk Limited, The Work Place, Aycliffe Business Park, Heighington Lane, Newton Aycliffe, DL5 6AH

Email: info@nanorisk.co.uk

Telephone: 0191 369 2434

Nanorisk acts as a data controller for personal data processed in connection with our business operations and portal administration, and as a data processor when processing personal data on behalf of clients as part of contracted security assessment services.

Scope Of This Privacy Notice

This Privacy Notice applies to clients, client representatives, portal users, and other individuals whose personal data may be processed in connection with Nanorisk's services or the operation of the Nanorisk Security Portal.

Personal Data We Process

Nanorisk may process the following categories of personal data, depending on context:

- Client and business contact details (name, job title, organisation, business contact information)
- Portal account and access data (user accounts, authentication data, access logs)
- Engagement-related data (communications, identifiers associated with in-scope systems)
- Technical and security data (IP addresses, audit logs, system identifiers)

Nanorisk does not intentionally collect personal data beyond what is necessary to deliver its services.

Purposes of Processing

Personal data is processed for the following purposes:

- Delivering contracted cyber security services
- Managing client relationships and communications
- Operating, securing, and administering the Nanorisk Security Portal
- Producing and delivering assessment reports
- Maintaining audit trails and quality assurance
- Complying with legal, regulatory, and contractual obligations

Lawful Bases for Processing

Nanorisk processes personal data in accordance with UK GDPR under the following lawful bases:

- Contract – where processing is necessary to deliver agreed services
- Legal obligation – where required to comply with applicable laws
- Legitimate interests – including security monitoring, fraud prevention, and service improvement

Nanorisk does not generally rely on consent as a lawful basis for processing in the context of security assessments.

Data Sharing and Sub-processors

Nanorisk may share personal data with trusted service providers acting as sub-processors, including hosting, infrastructure, and communication providers, solely where necessary to deliver services. All sub-processors are subject to appropriate contractual safeguards.

Nanorisk does not sell personal data.

International Transfers

Personal data is hosted within the UK and/or European Economic Area. Where any international transfers occur, appropriate safeguards will be implemented in accordance with UK GDPR.

Data Retention

Personal data is retained only for as long as necessary to fulfil the purposes for which it was collected, or as required by law or contract. Retention periods are defined within Nanorisk's internal data retention policies.

Data Security

Nanorisk implements appropriate technical and organisational measures to protect personal data, including access controls, encryption, and audit logging.

Individual Rights

Individuals have rights under UK GDPR, including the right to access, rectify, or erase personal data, and the right to restrict or object to processing. Requests may be subject to lawful exemptions, particularly where disclosure could compromise security.

Individuals may exercise their data protection rights by contacting Nanorisk using the details provided in this notice.

Requests are assessed on a case-by-case basis in accordance with applicable data protection law. Where necessary, Nanorisk may request verification of identity before responding.

Requests will be responded to within applicable statutory timeframes. Where a request cannot be fulfilled in full due to legal, contractual, or security obligations, this will be explained to the individual.

Data Breaches

Nanorisk maintains procedures to identify, assess, and respond to personal data breaches. Where required, breaches will be reported to the Information Commissioner's Office and affected parties.

Contact and Complaints

Questions regarding this Privacy Notice or the processing of personal data may be directed to info@nanorisk.co.uk. Individuals also have the right to lodge a complaint with the Information Commissioner's Office (ICO).

Review and Updates

This Privacy Notice is reviewed periodically and updated as necessary to reflect changes in legal, regulatory, or operational requirements.

Document Control

This document is a managed publication developed by Nanorisk Limited. Oversight for its maintenance, distribution, and any future revisions lies with the designated document owner within the company. Unless explicitly noted otherwise, all content within this document is © 2025 Nanorisk Limited.
